3 Way Tap INOX Drinking Water Faucet

🏠 Apartments

🏡 Private houses

RO filter installation without drilling extra holes

Code: RF-120

Made from AISI 304 stainless steel for long-term durability

Integrated aerators

Versatility — Combines cold, hot, and purified drinking water in one faucet, eliminating the need for an extra tap

Convenience — Two separate handles: one for hot and cold tap water, the other for filtered drinking water

Space-Saving — No need to drill an extra hole in your countertop for a separate drinking water tap

Modern Design — A stylish look that seamlessly fits into any kitchen interior
