

ECOSOFT JOI UNDER-SINK WATER FILTER

The JOI Under-Sink Water Filter is an ultra-compact, high-performance water treatment solution designed for modern kitchens. This 2-stage filtration system effectively removes chlorine, organic impurities, and mechanical sediments, significantly improving the taste, odor, and color of tap water.

WATER SOURCE: Tap water supply

KEY FEATURES

- **2-Stage Advanced Filtration:** A sediment filter paired with high-quality carbon works to significantly improve the taste, odor, and clarity of your water.
- **High Filtration Precision:** 0.5-micron rating ensures the retention of even the finest particles, including sand or rust.
- **Sustainable & Cost-Effective:** Provides up to 18,000 liters of purified water, reducing the need for single-use plastic bottles.

The product is completed:

- 2x 60 cm hoses, 3/8" Female to 1/2" Male
- Connection adapter Fitting Kit (3/8" Female to 1/2" Male + 1/2" Female to 3/8" Male)
- Service wrench
- Teflon tape
- 2x Rubber seals 1/2"

TECHNICAL SPECIFICATION

	USWFJOI
Type	MONO
Filtration Stages	2 (Sediment + Activated Carbon)
Filtration Rating	0.5 micron
Service Life	Up to 18,000 Liters (approx. 6 months)
Working pressure, BAR	5.5 bar (80 psi)
Working temperature, °C	+4...+38 °C (41...100 °F)
Installation Type	Vertical Under-Sink

Space Requirement: It is recommended to leave at least 20 cm of clearance below the unit for easy cartridge replacement.
