

# 3P NATURAL BRASS HEAD FILTER HOUSINGS WITH FLUSH

The 3P natural brass filter housing with flush is a robust water purification solution for residential, technical, and industrial use. It is also suitable for high-pressure hot water treatment.

The natural brass filter head and PET-G\* housing ensure product reliability and durability.

The model's peculiarity lies in the drain valve, designed to expel sediments efficiently. The raindrop-shaped bowl and bottom grid maintain filter cartridge cleanliness, ensuring full filtration efficiency and swift dirt elimination.

## KEY FEATURES

- Drop style bowl to better flushing sediments off
- High pressure water treatment up to 10 bars
- Internal centralizer ensures proper orientation of the cartridge
- Less pressure drop through the special filter design
- High versatility. Compatible with three cartridge designs: DOE, BIG, COD3
- Breather valves are fit for the pressure gauges installation
