

SCALEX 2P 5" MINI FILTER

SCALEX 2P 5" MINI filter is designed to protect boilers from limescale build-up. The bowl is made of high-quality PET material, which guarantees filter reliability and durability.

UNIQUE SCALE INHIBITOR

Innovative and eco-friendly filter media with complex effect on hardness, which prevents scale formation on heating elements of household appliances.

KEY FEATURES

- FREE OF PHOSPHATES & POLYPHOSPHATES
- SCALEX treated water can be heated to 105 °C (221 °F)
- Compact design
- Simple and fast installation
- Reduces energy consumption
- Safe for human health and environment
