

# CXPS 304 PLEATED STAINLESS STEEL CARTRIDGE

The CXPS 304 pleated stainless steel washable cartridge is designed to protect boilers, filtering sand, scale, rust, and hot water from hydroelectric applications. Versatile industrial use includes protecting water pumps, boilers, irrigation, cooling systems, car wash services, and the food industry. Regeneration, achieved through mechanical or counter-current chemical washing, ensures prolonged, efficient reuse.

## KEY FEATURES

- 3 times higher filtering area in comparison to standard cartridges
- Treatment of highly corrosive or dense liquids.
- Uniform flow and low pressure drop due to cylindrical shape
- Hot water filtration up to 90°C
- Suitable for drinking water treatment
- Complies with DM25 standards (ITALY)

made in   
**ITALY**

<b>Model</b>	CXPS
<b>Filtration</b>	Sediments
<b>Filtering medium</b>	Stainless steel AISI 304
<b>Internal support</b>	Nylon
<b>External armouring</b>	Stainless steel
<b>Valves</b>	Nylon
<b>O-ring</b>	NBR 70
<b>Connection</b>	DOE
<b>Working temperature</b>	From 4°C (39°F) to 90°C (194°F)
<b>Cartridge type</b>	Washable
<b>Maintenance</b>	Quarterly
<b>Duration</b>	24 months
